

# ModCom<sup>1</sup> EcoPro™

Always Powered, Always Connected

Our self-charging headset captures the power of light for virtually infinite run time.

## **Self-Charging Transformative technology Endless energy Worry-free operation**

We've integrated a nano-material innovation directly into our design that transforms any light, natural or artificial, into clean, endless energy. (Powerfoyle™ by Exeger.) This eliminates the need for cords and cables.

We've also included a 55-hour rechargeable battery when light levels are limited.

# The ModCom1 EcoPro™ delivers clear, crisp audio with advanced performance features that keep you connected.

97% noise cancelling mic for clear communications even in the loudest environments

Multipoint Bluetooth enables simultaneous connections to two different sources. Communicate on radio, make a phone call, stream music.

Extended operating range. 100ft (30m)

Smart assistant. Connect with Siri and Google assistant.

Hands-free communication with push button controls.

**The ModCom1 EcoPro™ is built for the toughest environments and comfortable for all-day use.**

Durable military standard MIL-STD-810 rated.

Freeze-rated to -4°F (-20°C)

Water resistant. IPX4 rated for wet environments.

Comfort foam in contact areas.

Lightweight -5oz. (.14Kg)

# Applications

**Trucking Fleet Communication**

**Delivery Drivers**

**First Responders**
